- Next button this button will submit all your answers

LOGIN

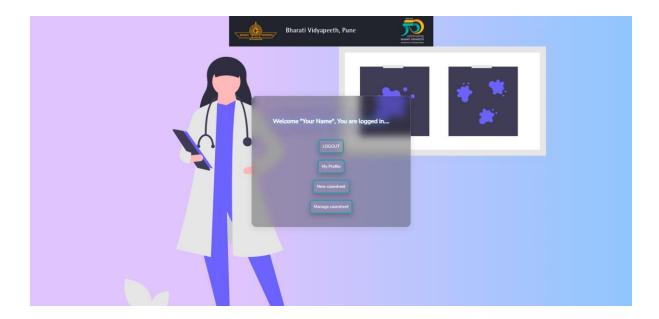

The system will automatically detect if you are a patient or a doctor based on your username/email and password combination you type in the fields respectively. Then you can access your account.

LOGIN AS PATIENT

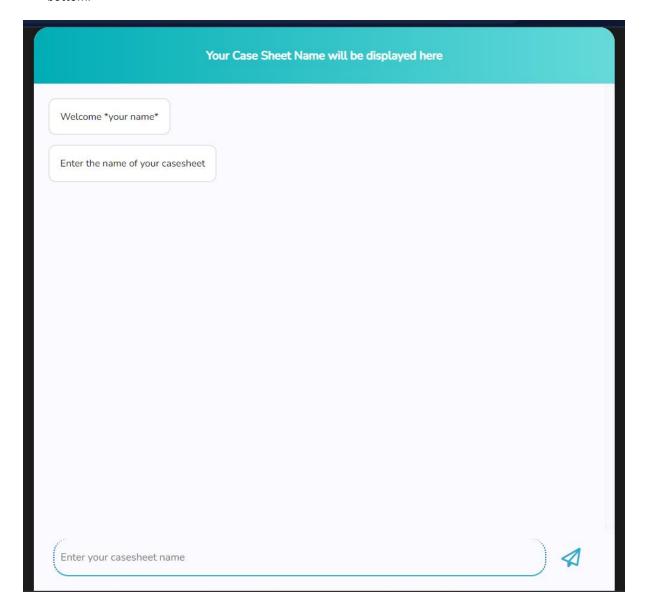

As a patient, you will have the following options

- o Logout to log out from your account
- o My Profile view your account details
- o New Casesheet create a new casesheet for any health problem
- o Manage Casesheet view or delete your existing casesheet

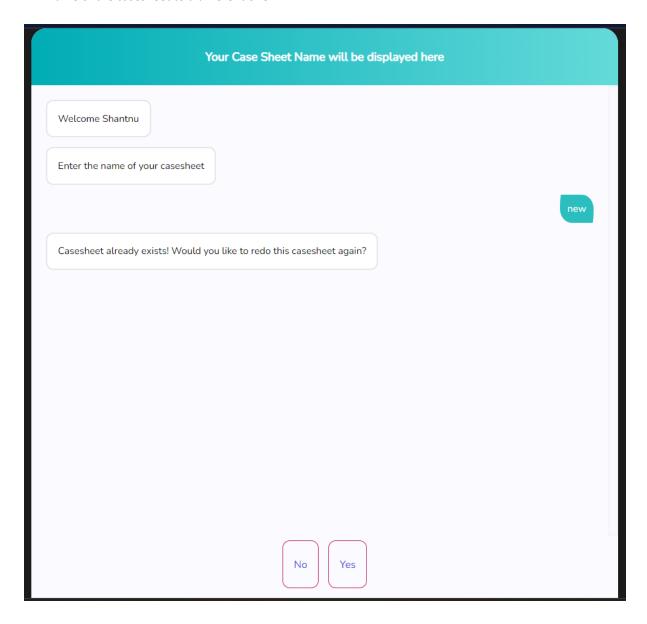

NEW CASESHEET

1. The chatbot will ask you to enter the name of your casesheet. You can type it in the bar given at the bottom.

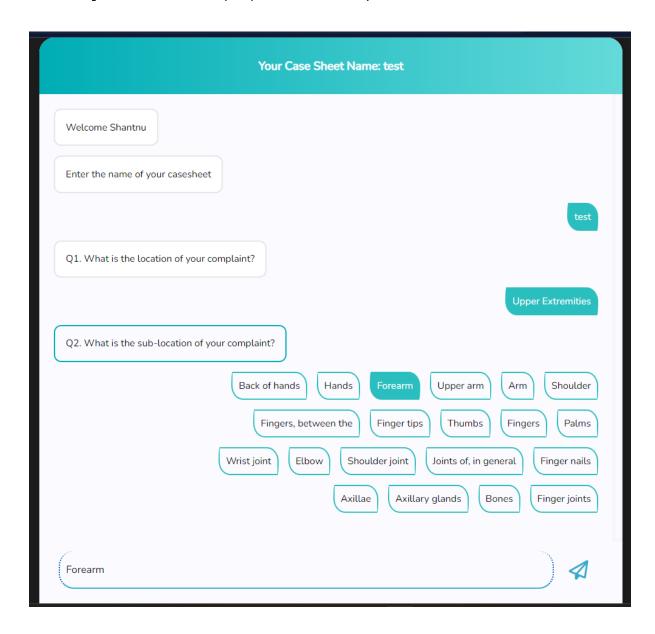

2. If the casesheet name exists already, you must confirm if you want to rewrite the casesheet or change the name of the casesheet to a different one.

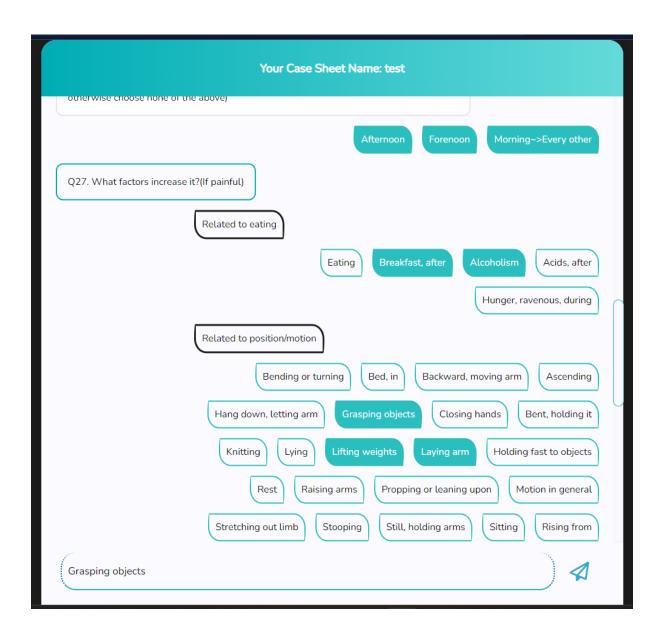

3. The chatbot will keep asking you questions and provide you with options. You can select any option or search for the options from the input bar located at the bottom of the page.

Options of questions 1 to 25 are **single** selection and after that, options are **multiple** selection. **Multiple** selection usually will have a black bordered heading.

If there are any black bordered options, they are headings and you can click them to view options under that heading. You can selected multiple options in this case only.

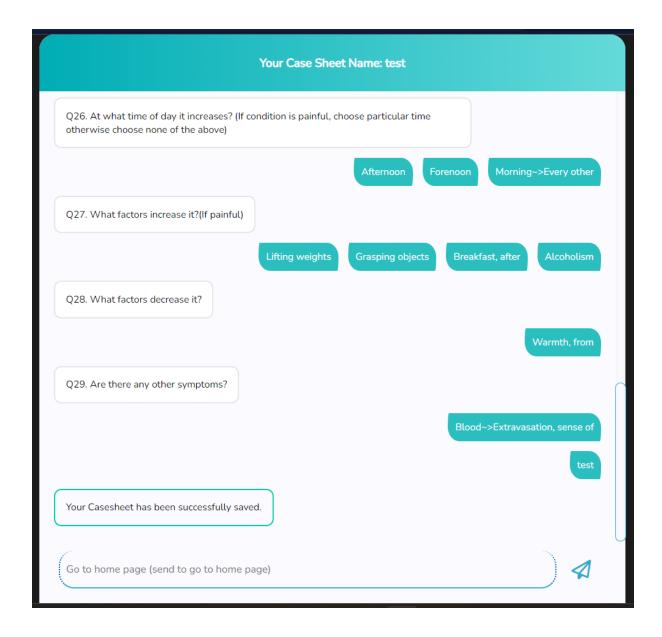

NOTE: If the options do not have a dark bordered heading, it means that you can only select one option from the given options. The image above is an example of **single** selection.

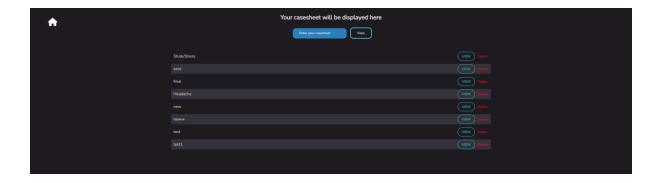

NOTE: If the options do not have a dark bordered heading, it means that you can only select one option from the given options. The image above is an example of **multi** selection.

4. After the chatbot is done asking you questions, it will say, "Your Casesheet has been successfully saved." After this just click on the send button and it will take you to your home page.

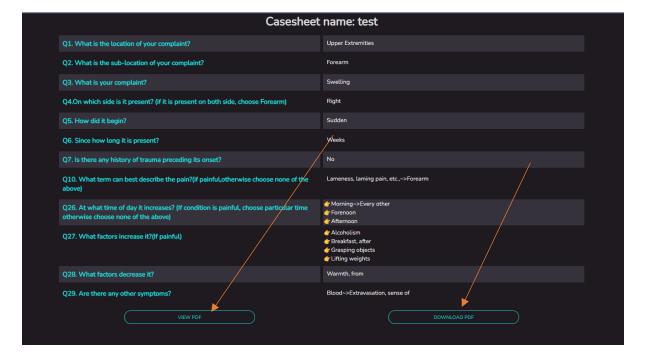

MANAGE CASESHEET

- You can view your existing case sheets in detail and download them in PDF format in your device.
- If there are too many case sheets, you can type the **exact** name of the casesheet in the search box located at the top.
- You can delete any case sheets which are of no use.

DOWNLOAD YOUR CASESHEET IN PDF FORMAT

After viewing your casesheet, scroll down until you find the following buttons:

ViewPDF will allow you to view your casesheet in PDF format directly without downloading.

DownloadPDF will download a PDF copy in your device saved with the name "username_caseSheetName"

DELETE CASESHEET

After clicking <u>Manage Casesheet</u> option, you can click on Delete option and then you will get a dialogue box asking you to confirm if you want to delete the casesheet.
